

# EFL Global

## Global Goodness

### About EFL Global

Launched in 2019, EFL 'Global Goodness' strives to mobilize our 'ESB' framework through projects and initiatives relating to environmental, social, and governance (business) aspects.

We also aim to encourage volunteerism among our employees in sustainable projects and help build a more 'conscious' workforce and community.

EFL Global is aware of the integral role the environment plays to ensure the existence of life, both on land and underwater.

Hence, EFL is committed to minimizing the impact of its activities on the environment. 'Global Goodness' has undertaken multiple large-scale projects globally, promoting environmental sustainability.

In terms of social sustainability and empowerment, EFL Global strives to address multiple societal goals while maintaining access to clean water & sanitation.

### Agenda

We aim to offer customer-centric services while promoting sustainable practices across all business operations to enhance our footprint as a conscious corporate citizen. Our operations are aligned with the United Nations Sustainable Development Goals, and we have prioritized 7 goals:

1. Clean Water and Sanitation
2. Affordable and Clean Energy
3. Responsible Consumption and Production
4. Climate Action
5. Life Below Water
6. Life on Land
7. Gender Equality

Projects launched under the '**Global Goodness**' brand are long-term, aligned with the **UN SDGs** we have prioritized, and should have the potential to be transformed into **holistic projects**.
